# Overview Of Trading Tools

---

Access to the the proper tools is critical in positioning for success

There is an overwhelming number of different options available, both paid and free, and we will discuss which tools are best to ensure you are equipped for your new business venture as a trader

# Broker Selection

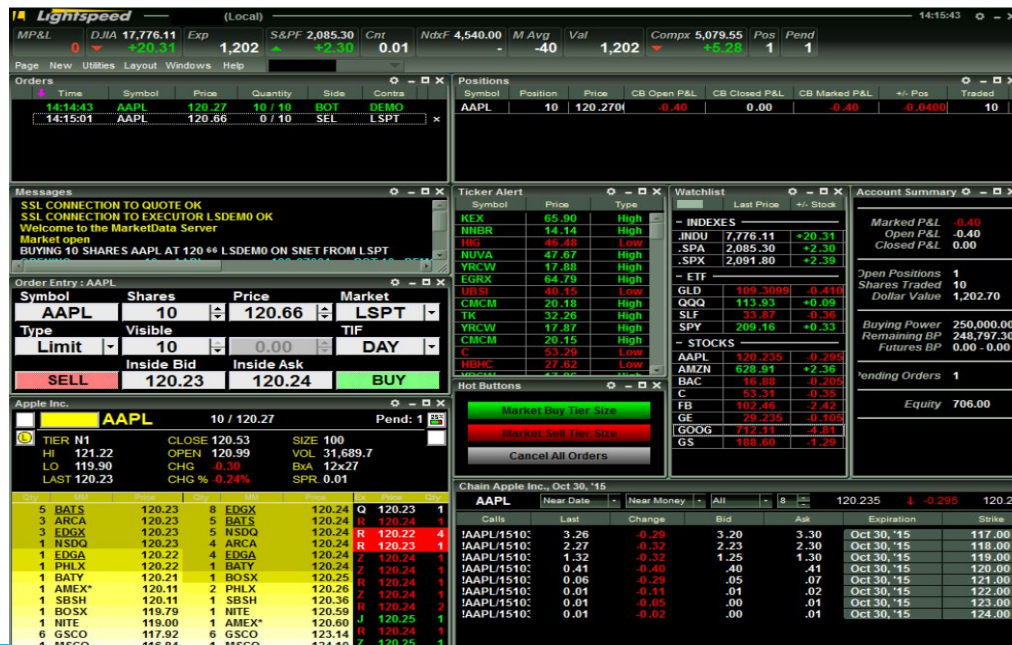

---

As a day trader you will require access to instant executions, hot keys, and direct access routing all within a very stable and reliable platform

For these reasons we prefer to use Lightspeed Financial and Trade Station as they are best known for the highly reliable and stable platforms in addition to unmatched customer service

# Scanning Software

---

Market awareness is an important contributing factor to success and having access to idea generation software will help achieve that goal

Identifying the right stocks to trade doesn't have to be an overwhelming task and utilizing scans to filter out the noise will keep you focused on what matters most, quality over quantity

# Charting Software

---

Another key element to your development as a trader is access to accurate price data, i.e., charting

Without the proper price data and ability to access historical action you will not have the ability to identify the full context of market structure which ultimately will impede your ability to successfully analyze the technical factors of a chart

# Community

---

Trading can be an isolated and lonely profession without a community

Along with isolation comes unawareness and unawareness can be costly

As part of a community there will be the support of other educated traders which means there will be several sets of eyes scanning the market and processing news simultaneously which equates to a great degree of efficiency

# Community

The screenshot displays the Warrior Trading community chat interface, which is organized into three main chat rooms. On the left, a vertical sidebar lists the available rooms: Small Cap, Large Cap, Warrior Pro Mentor, Support, and Off Topic - Coffee Lounge. The main area shows the chat history for the 'Large Cap Room - 1136 online', 'Small Cap Room - 4582 online', and 'Warrior Pro Mentor Room - offline'. Each room has a header bar with its name and member count. The chat messages are displayed in a list format, with user avatars and names on the left, and the message text on the right. Some messages are highlighted in yellow. The interface includes a search bar at the top of each chat window, a list of users in the room on the right, and a bottom bar with a search bar and a 'Show all' button. The date and time of the chat session are displayed at the bottom right of the interface.
